65 a. To hear abatement denial appeal for Gretchen and Keith Benggio of Cornish

66
67 County Manager Zinser explained that the Commissioners would conduct a formal hearing on the
68 Benggio abatement denial appeal. Gretchen Benggio was sworn in and presented her case, noting
69 concerns about a July 2025 assessment increase of \$110,000 and requesting a reduction from \$694,000 to
70 approximately \$584,000. She reported recent discussions with the town assessor regarding a possible
71 adjustment to \$604,000.

72
73 Commissioners asked clarifying questions about the appeal process and negotiations with the town. The
74 appellant expressed concern about future tax impacts and provided historical assessment data.

75
76 Bob Konczal, the town's assessor agent, was sworn in, confirmed a misclassification error, and
77 recommended a revised valuation of \$604,400, with a taxable value of \$579,400 after the homestead
78 exemption. He noted that the Cornish Select Board must vote on the abatement at its December 10, 2025,

96 noted that assignments are flexible and that filling this position will help maintain coverage across

117 confirmed that New Hampshire law enforcement certification is reciprocal with Maine, requiring only

119 York County within six months. The candidate currently resides in Gilmanton Ironworks, New

d. Approval of EMS Program Administrator Position

County Manager Zinser introduced the proposal to create an EMS Program Administrator position as the next step in staffing the Regional Training Center. He noted that the position is included in the current budget under EMS certifications and that funds for wages and benefits are already allocated. Hiring an individual is preferred over contracting to meet licensing standards and achieve certified training center status. Pending board approval, the position will be posted promptly to advance the consortium license process. Fire Administrator Roger Hooper addressed questions from the Commissioners.

Commissioner Chenette expressed support and inquired about anticipated revenue to offset costs and whether a market analysis had been conducted. Administrator Hooper stated that revenue will come through tuition in partnership with York County Community College, though specific figures and tuition-sharing details are still under negotiation.

Commissioner Ring would like to see the benefit package reviewed for any new positions.

MOTION: Commissioner Clark moved to approve the EMS Program Administrator Position. Commissioner Chenette seconded the motion. Motion carried 4:1 with Commissioner Ring opposing.

e. Alfred Courthouse Discussion

County Manager Zinser led a discussion on the Alfred Courthouse, noting that the building is oversized for current needs and faces major repair issues, including the bell tower, brick repointing, and a failing geothermal HVAC system. He shared that Sanford Housing proposed a building swap over a year ago, offering the newer Springvale Courthouse in exchange for Alfred, which they would redevelop into 55+ housing, childcare facilities, and additional units using historic preservation funding. Departments affected by a move expressed support, though legislative approval may be required. County Manager Zinser emphasized that while operational savings from a swap would be modest, the primary benefit

204 would be avoiding significant capital repair costs at Alfred. Current rental income of \$35,000–\$40,000
205 could likely transfer to Springvale.

206
207 Commissioners provided input on the proposal. Commissioner Ring acknowledged the historical
208 significance of Alfred but suggested that a swap may be the best financial option and recommended
209 taxpayer input. Commissioner Chenette requested schematics, square footage comparisons, maintenance
210 details, and rental analyses for both courthouses, and proposed a public visioning session with detailed
211 visuals. Commissioner Dutremble confirmed long-standing geothermal issues and asked about renovation
212 costs, agreeing that public input is important. Commissioner Clark expressed strong reservations, citing
213 the courthouse's historical and practical value, concerns about dismantling the courtroom, moving records
214 from the county seat, and losing property that could be costly to replace later. He stated that the large
215 parking lot on Route 111 should be retained and warned against giving up assets that may gain value in
216 the future. Commissioner Andrews asked whether locating the facility in Springvale instead of Alfred, the
217 county seat, would present a problem. County Manager Zinser confirmed that county buildings can be
218 located outside Alfred.

219
220 Facilities Director Rick deRochemont explained that the geothermal system was misconfigured from the
221 start, uses outdated Freon, and requires full replacement at an estimated cost of \$200,000. The well pump,
222 now 20 years old, is expected to fail, and the courthouse's 88 units require frequent repairs. Renovations
223 for a move to Springvale would be minimal, involving cubicle relocation, carpet cleaning, and some door
224 replacements. Commissioners also discussed the Child Advocacy Center, which is facing certification
225 issues and the County has shifted services to Cumberland County Advocacy Center. Commissioner
226 Chenette stressed the need for clear communication and suggested involving the District Attorney to
227 reassure constituents.

228
229 The board agreed that public input is essential regarding the courthouse swap. Commissioners proposed
230 holding a public hearing or visioning session to engage residents and groups such as the historical society.
231 County Manager Zinser will prepare a cost comparison and additional data for review before any
232 decisions are made.

233
234 f. Letter from EMA to Maine Congressional Delegation

235
236 County Manager Zinser introduced the topic of a letter to the federal delegation regarding FEMA delays
237 and invited EMA Director Arthur Cleaves to provide context. Director Cleaves explained that three
238 approved emergency protective measure projects in Saco, Wells, and Old Orchard Beach, intended to
239 install small berms for protection, have been stalled in FEMA's Environmental and Historical
240 Preservation review since April. Despite permits already being secured from the Army Corps of Engineers
241 and DEP, FEMA has not coordinated with these agencies, causing unnecessary delays. The federal
242 shutdown further compounded the issue, and the projects have now been pending for nearly nine months.
243 Director Cleaves warned that additional review by the Secretary of Homeland Security for projects over
244 \$100,000 could add 60–90 days, pushing completion beyond the March dredging season. He stressed the
245 urgency of action, noting ongoing efforts with FEMA Region 1 and Senator Collins' office, and requested
246 any additional support to help move the process forward.

247
248 Commissioner Chenette thanked EMA Director Cleaves for preparing the letter and expressed concern
249 that federal delays, particularly the additional review by the Secretary of Homeland Security, are
250 jeopardizing the ability to use the dredge, a critical tool for protecting coastal communities. He stressed
251 that the situation is urgent and that the next storm could result in the loss of more homes if action is not
252 taken. Chenette emphasized the need for the congressional delegation to prioritize this issue and
253 suggested also sharing the letter with state legislators to apply additional pressure. He called this an "all-
254 hands-on-deck" moment, noting that constituents are frustrated by the lack of progress and that the

255 commission has shown leadership, but the federal government is “dropping the ball.” He urged immediate
256 action to ensure the dredge can be deployed this season.

257
258 **MOTION: Commissioner Clark moved to approve the letter to the federal delegation regarding**
259 **FEMA project delays and authorize its submission. Commissioner Chenette seconded the motion.**
260 **Motion carried 5:0**

261
262 **6. OLD BUSINESS**

263 a. Information regarding Part-time employment and volunteering

264
265 County Manager Zinser addressed a question raised by Commissioner Clark at the previous meeting
266 regarding whether a part-time or reserve employee could also volunteer for the pantry. County Manager
267 Zinser confirmed that Clark was correct, employees, including reserve staff, can volunteer for similar
268 duties. He acknowledged that this had not been considered initially but noted it does not significantly
269 impact current operations for the remainder of the month. County Manager Zinser stated that the issue has
270 been discussed with the employee and will be revisited in the new year to determine the best course of
271 action after the busy season.

ITEM

1. PUBLIC COMMENT(S) ON ANY ITEM(S)

David Plavin, Vice President of SOS Saco Bay and Chair of the City of Saco Shoreline Commission, thanked the Commissioners for their letter of support in resolving issues that delayed the dredge from leaving port. He praised Art Cleaves, EMA Director, for his determination and acknowledged collaboration with SOS President Kevin Roach and others. Mr. Plavin also thanked Commissioner Chenette for leading the effort among commissioners and noted additional support from state representatives and a senator, which helped achieve progress. The dredge is expected to be in Wells in January and then in Saco, allowing sufficient time for work. He expressed optimism about a strong Regional Economic Growth (REG) program moving forward and emphasized the potential for future success with continued support.

Kevin Roach, President of SOS Saco Bay, thanked the county commissioners, Art Cleaves, and all levels of government for overcoming challenges to get the dredge operational. He noted the initial controversial vote about three years ago, its launch last year, and anticipated use this winter. Kevin emphasized the long-term benefits, highlighting that Saco is slated for the Army Corps Jetty Project, one of Maine's largest federal projects, with sand replenishment scheduled for 2027. He suggested that the county dredge could serve as the dredge for that project, saving costs and increasing efficiency. This winter's smaller project is seen as a "practice run" that could build momentum for broader use of the dredge in southern Maine and beyond, bringing attention and benefits to the region. He concluded by expressing optimism about future opportunities.

52 Janet Drew (York, ME) thanked the Commissioners and wished them happy holidays. She shared that the
53 Board of Visitors recently toured the new training center and found it impressive, noting it seems ahead of
54 schedule. Janet also mentioned the Board of Visitors report prepared by Susan Wiswell and asked about
55 the status of the food pantry.

56 County Manager Zinser responded that the food pantry is very active, distributing over 700 Thanksgiving
57 baskets including turkeys. Demand remains high, and donations are encouraged. Regarding the training
58 center, the first EMS class is scheduled for January 7th or 8th, confirming the project is slightly ahead of
59 schedule and will be a valuable asset for the county.

77 **4. TO HEAR ANY REPORTS FROM THE COUNTY COMMISSIONERS**

78 Commissioner Chenette commended David Plavin and Kevin Roach, from SOS Saco Bay, for their
79 advocacy and emphasized that recent progress on the dredge and beach nourishment projects was an all-
80 hands effort involving the county, SOS Saco Bay, and multiple levels of government. He praised Art
81 Cleaves and his team for their leadership and highlighted collaboration with state and local officials.
82 including Senator Bailey, Representatives Archer, Copeland, Gramlich, Mayor Jodi MacPhail, Bob Foley,
83 and others as well as congressional staff. These projects are critical to protecting homes, livelihoods, and
84 the local economy from storm damage. With bureaucratic hurdles cleared, dredging is expected to begin
85 in Wells in January, followed by Saco and Old Orchard Beach. Commissioner Chenette stressed that this
86 is just the beginning, with more work ahead, and commended the county's role as a coordinating force to
87 protect the coastline and support future resilience efforts.

88 County Manager Zinser noted an additional agenda item regarding county manager authority under Title
89 30-A, which includes a proposed motion, rationale paragraph, and a resolution requiring execution. He
90 will provide details later in the meeting. He thanked Art Cleaves and the EMA team for their extensive
91 efforts on recent projects, emphasizing the significant time and communication involved. The County
92 Manager then addressed the hiring of seven public safety instructors for the Regional Training Center,

184

185 County Manager Zinser introduced the topic of Flock license plate reader (LPR) cameras, noting that
186 commissioners received a proposal from Chief Deputy Forbes prior to the meeting. The purpose of this
187 discussion was to introduce the concept, clarify its intended use, and address initial questions.
188

189 Chief Deputy Forbes explained that the cameras would help address challenges posed by the county's
190 large coverage area (300+ square miles) and limited staffing (3–5 deputies on duty). He emphasized that
191 the technology only captures vehicle plates on public roads, not faces or personal tracking, and that data is
192 retained for 21 days by law. Chief Deputy Forbes highlighted benefits for solving crimes, locating
193 suspects, and supporting public safety initiatives such as mental health interventions, Amber Alerts, and
194 Silver Alerts. He also noted potential uses for traffic management and evacuation planning, referencing
195 EMA's prior interest in similar technology. Chief Deputy Forbes assured that strict policies and

196 transparency measures, similar to those implemented for body cameras, would govern the system. He
197 invited commissioners to meet with Flock representatives for further details.
198

199 Commissioner Questions and Comments

200 Commissioner Chenette thanked Chief Deputy Forbes for the presentation and stressed the need for a
201 careful, transparent evaluation process, including public input, given concerns raised at the municipal
202 level. Key points discussed:

- 203 • Traffic enforcement: Chief Deputy Forbes confirmed the cameras will not be used for speeding or
204 seatbelt violations.
- 205 • Federal access to data: Chief Deputy Forbes stated that any access would require going through
206 the Sheriff's Office and be limited to public safety issues. Commissioner Chenette requested
207 more clarity on internal processes and statutory authority for a future meeting.
- 208 • Local approval: Placement on private property requires owner consent, while placement on state
209 DOT property requires town approval and compliance with conditions (speed limit ≤ 35 mph, no
210 traffic obstruction).
- 211 • Other jurisdictions: Chief Deputy Forbes noted that several municipalities (Lewiston, York,
212 Auburn, Falmouth) use Flock cameras successfully, but no other counties currently do.
213 Commissioner Chenette expressed interest in understanding why other counties, such as
214 Cumberland, have not adopted them.
- 215 • Independent review: Commissioner Chenette asked about accountability measures to ensure
216 compliance with data retention and usage policies. Chief Deputy Forbes responded that while
217 there is no formal external audit, the Sheriff's Office would provide open access for review and
218 could conduct quarterly reports if requested. He reiterated that Flock does not have access to
219 vehicle owner information and only captures vehicle and plate data.

220 Commissioner Chenette emphasized the importance of public awareness and engagement before moving
221 forward and suggested scheduling a follow-up meeting with Flock representatives for detailed answers.
222

223 Commissioner Clark voiced concerns about privacy and surveillance, citing his lifelong commitment to
224 personal privacy. He acknowledged that technology already tracks individuals but stated he is
225 uncomfortable expanding monitoring through cameras. While he trusts current leadership, he worries
226 about future administrations misusing the technology and called for real guarantees against abuse, though
227 he admitted uncertainty about how to achieve that. Commissioner Clark expressed skepticism that
228 cameras make people feel safer and shared serious reservations about the proposal, while appreciating the
229 opportunity for discussion and agreeing to revisit the topic in future meetings.
230

231 County Manager Zinser thanked Chief Deputy Forbes for the presentation and stated that the next steps
232 will include scheduling additional meetings, obtaining answers to outstanding questions, and developing a
233 plan of action in coordination with the Sheriff's Office. The finalized proposal will be brought back to the
234 board for consideration at a future date.
235

236 d. MDEA MOU Discussion and Approval (executive session may be necessary)

238 County Manager Zinser presented a proposed Memorandum of Understanding (MOU) between York
239 County and a deputy assigned to the Maine Drug Enforcement Agency (MDEA). He explained that this
240 agreement is part of a longstanding arrangement with the state and would allow a concurrent promotion
241 for the deputy, enabling eligibility for a supervisory position within MDEA. County Manager Zinser
242 noted that the MOU is straightforward and requested board consideration.
243

244 He advised that any detailed questions should be addressed in executive session under 405(6)(A) due to
245 personnel matters. County Manager Zinser also emphasized the urgency, stating that delaying action
246 could make the agreement moot because of a closing application window for the supervisory role.

247 Commissioner Chenette asked if this was the same agreement previously flagged for concern by
248 Commissioner Ring. County Manager Zinser confirmed it was and explained that, since the item was
249 already posted on the agenda, only the board could remove it as requested by Commissioner Ring.
250

251 **MOTION: Commissioner Chenette moved to proceed with the Memorandum of Understanding**
252 **between the County of York and MDEA Deputy Regan. Commissioner Clark seconded the motion.**
253 **Motion carried 3:0**

254

255 e. FY25 Surplus Allocation
256

257 County Manager Zinser presented a memo requesting approval for the annual surplus allocation, which is
258 traditionally done at year-end following audit site work. The county ended the fiscal year with
259 approximately \$800,000 in surplus revenues and about \$300,000 from the jail, totaling close to \$1
260 million.

261 The proposal includes:

- 262 • Reallocating \$800,000 from the general fund to contingency, capital improvements, employee
263 wellness, special projects, employee training and development, technology upgrades, and payroll
264 liabilities.
- 265 • Reallocating \$300,000 from the jail fund: \$200,000 to jail capital improvements and \$100,000 to
266 replenish the jail insurance reserve.

267 Additionally, County Manager Zinser recommended closing or consolidating outdated reserve accounts
268 (e.g., ergonomics fund, EMA facility garage fund, and government building renovation fund) and
269 reallocating those balances to active accounts such as special projects. He assured that sufficient funds
270 will remain for building maintenance and noted that capital improvement reserves will provide backup for
271 major repairs.

272

273 County Manager Zinser emphasized that all details, including starting balances, proposed reallocations,
274 and ending balances, are outlined in the attached document and invited commissioners to ask questions.
275

276 Commissioner Chenette asked for clarification on certain budget lines, specifically "Special Projects." It
277 was explained that this fund was created about six or seven years ago to support initiatives such as the
278 renovation of the former Layman Way Recovery Center and continues to fund recovery center projects.
279 For building-related needs, the Capital Reserve account holds approximately \$200,000, separate from the
280 \$100,000 allocated for capital improvements in the operating budget. Additionally, an unrestricted reserve
281 account has about \$294,000 available for emergencies or major building expenses. Regarding the food
282 pantry, minor costs like a freezer would first be covered by the operating budget; if that is not feasible,
283 funds could come from reserves. The discussion also addressed the Employee Wellness budget, which
284 covers staff engagement activities, plaques, and maintenance or replacement of gym equipment.
285 Commercial-grade equipment, such as treadmills, can cost around \$5,000, which justifies the increase of
286 this budget to \$40,000.

294

f. Resolution on Authority of York County Manager

295

296

County Manager Zinser explained the need for a resolution affirming the authority of the county manager under Title 30A, as requested by the bank during the process of securing a line of credit. This line of credit is intended to protect the county from potential federal funding delays, particularly as it undertakes a \$5 million dredging project that requires upfront payments with expected reimbursements. Zinser noted that federal reimbursement processes can be unpredictable and highlighted the risk of a government shutdown if a continuing resolution is not passed by January 30. The resolution, which was previously approved many years ago, is rarely requested but necessary for the bank to proceed. Zinser asked the commissioners to review the proposed motion and authorize signing the updated resolution.

304

305

306 The Commissioners reviewed the following: As we know, the County Manager is required to implement
307 the actions and directives of the York County Commissioners. In order to do so, he needs to engage in
308 discussions and negotiations in some matters and to take action on others, which may include the signing
309 of various documents on our behalf. Because some third parties wish to see his authority set forth in a
310 formal manner, I hereby make the following motion which may be memorialized in a written resolution:

311 **MOTION: Commissioner Clark moved to authorize County Manager Zinser to take action on**
312 **behalf of the York County Commissioners confirming, implementing and/or executing on the**
313 **directives, actions, guidance, and/or votes of the York County Commissioners, including, but not**
314 **limited to engaging in discussions and negotiations with other parties as well as the preparation and**

316 **documents (including but not limited to checking, savings accounts, reimbursements, advances,**
317 **lines of credit, grants, and other contractual arrangements), procurements, leases, audits,**
318 **memoranda, applications, commitments, settlements, resolutions, and all other documents as**
319 **necessary to effectuate the purposes of the Commissioners. Commissioner Chenette seconded the**

338 Not necessary.

339

340 **8. PUBLIC COMMENT(S) ON ANY ITEM(S)**

341

342 Susan Wiswell asked for clarification regarding the amounts listed under "Special Projects" and whether
343 the figures were additive. County Manager Zinser explained that the amounts include both new money
344 from the surplus and the reallocation of older reserves that are no longer needed. Specifically, the total
345 consists of \$480,000 plus another \$480,000 and \$241,853.07, for a combined balance of approximately
346 \$1.7 million. Zinser emphasized that these are two separate actions: adding surplus funds and moving
347 existing reserves into Special Projects.

348

349 Commissioner Clark wished everyone in attendance and everyone watching at home a Merry Christmas
350 and a Happy New Year. Commissioner Andrews seconded the sentiment.

No waiver shall be deemed to have been made by any of the parties unless expressed in writing and signed by the waiving party. The failure of any party to insist in any one or more instances upon strict performance of any of the terms or provisions of the Agreement, who exercise an option or election under the Agreement, shall not be construed as a waiver or relinquishment for the future of such terms, provisions, option, or election, but the same shall continue in full force and effect, and not waiver by any party of any one or more of its rights or remedies under the Agreement shall be deemed to be a waiver of any prior or subsequent rights or remedy under the Agreement or at law.

IN WITNESS WHEREOF, THE TOWN OF WATERBORO, by order duly sworn by its Town Selectmen, had caused this contract to be signed by the Town Administrator and the County of York, BY ORDER OF THE County Commissioners, has caused this Contract to be subscribed by the Clerk of Said Board, all in the day and years first above written.
